The federal universal service fund program is designed to help keep local telephone service rates affordable for all customers in all areas of the United States.

Call before you dig, simply call 811

With the arrival of Spring, it is time to start thinking about outdoor projects. Please remember that it is state law to call JULIE before you dig. JULIE, which stands for Joint Utility Locating Information for Excavators, is a free notification service that alerts utility companies of planned digging activities in areas with underground utility facilities. This service operates 24 hours a day, everyday, and it can be reached by simply calling 811 or (800) 892-0123.

If you are a homeowner or renter, a contractor or an excavator planning to dig anytime this year, please call JULIE 48 hours before you dig. Calling JULIE can save you time, money, and problems! Remember while you think you may not be digging deep, the best thing to do is call. The underground lines and cables could be closer to the surface than you think. There is never a charge for a cable location.
